-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 24-26, 28-34, 40-41, 44, 46-60 are rejected under 35 U.S.C. 102(b) as being anticipated by Saggar US Patent 5,702,455.

Saggar discloses intervertebral implant comprising a first tubular body (1), a plurality of endplates (2 & 3) having an end surface (9) and a tubular portion (5 & 5') and a basket (17) disposed within at least one of the threaded bores (7). The basket is capable of receiving graft material between the holes (18) of the basket (17). The tubular bodies have openings (6 & 6') and graft material (see col. 1, lines 33-38).

Regarding claim 30, the apertures (18) extends over more than 50% of the basket thickness.

Claims 24-27, 31-33, 40-44, 46-47, 49-52, 54, 55, 58, 59 and 61 are rejected under 35 U.S.C. 102(b) as being anticipated by Rabbe et al US Patent 5,776,197.

Rabbe et al discloses intervertebral implant comprising a first tubular body (21), a plurality of endplates (22) having an end surface and a tubular portion and a basket (23) disposed within at least one of the bores. The inner surface of the basket is capable of receiving graft material (see col. 7, lines 1-9 and 25-31) and having a tab (50).

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 53 is rejected under 35 U.S.C. 103(a) as being unpatentable over Rabbe et al US Patent 5,776,197.

Rabbe et al discloses the invention substantially as claimed. However, Rabbe et al does not disclose a graft containment device comprising a resorbable material.

It has been held that a claim is anticipated if each element of the claim is found, either expressly described or under principles of inherency, in a single prior art reference, or that the claimed invention was previously known or embodied in a single prior art device or practice. Kalman vs. Kimberly-Clark Corp., 218 USPQ 789.

Rabbe et al discloses a graft material that promote the growth of bone material within the graft containment, therefore, it is an inherent characteristic of these materials to be resorbable.

***Response to Arguments***

Applicant's arguments with respect to claims 24-57 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3738

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

#### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
